PARENTS' ASSOCIATION

- Genesis Together - Annual membership fee / per family

The Genesis Together Parents' Association aims to strengthen ties between families and the school through opportunities for discussion, sharing and social events throughout the year.

Participation in the association is free and open to all: each family can contribute according to their wishes and means.

Contributions are used to support collective initiatives, enrich school life and encourage solidarity between families. A common fund also allows us to discreetly support those going through periods of transition, so that every child can enjoy their school experience to the full.

Together, we cultivate a warm, supportive community spirit committed to the success and fulfilment of all students.
